and

### CONTEST NEWS

Stay tuned for more information on these and other interesting news items.

### ONGOING LICENCE RENEWAL ISSUES

The SARL has not received any communication from ICASA this week. It appears that the ongoing spectrum auction issues have taken up the executives' time. The SARL, on Friday, lodged an urgent appeal to the Chairman of the ICASA Council to extend the deadline for license renewals by three months to 30 June 2021. The SARL also requested that ICASA expedites the availability of a guideline and videos to assist licensees to navigate their new online license system. The current system requires Google Chrome and is not backward compatible to other browsers. The SARL also pointed this out to ICASA Management as a major issue to be addressed.

### ELECTRONIC VOTING FOR THE 2020 SARL ANNUAL FINANCIAL STATEMENTS

In terms of Rule 8.9, the SARL Annual Financial Statements for the Year ended 30 June 2020 were uploaded to the SARL web site on Friday 12 March 2021 and a SARL Communication was sent to members on the same date. Members have thirty (30) days to consider the accounts, where after an electronic vote will take place from 00:00 CAT on Monday 12 April 2021 and will close at 23:59 CAT on Thursday 22 April 2021. Details about the voting will be published in SARL News closer to the time.

## SARL TECHNICAL SYMPOSIUM ON 27 MARCH 2021

The Unlocking Amateur Radio Technology Symposium will take place on 27 March 2021. The programme is taking shape and will be available early next week. The programme includes discussions like "Contesting 101" with Chris Burger ZS6EZ. There is a contest that will take your amateur radio experience to a higher level. Chris will explain how.

Brian Jacobs takes the lid off the SARL Next Generation beacon programme. The SARL President will tell delegates why VHF and UHF are important for amateur radio's future.

Dr Pierre Cilliers of SANSA Space Sciences will talk about propagation predictions, how to use them and how radio amateurs can get more involved. How to build your own OSCAR 100 station from locally available sub-systems will be discussed by Anton Janovsky, ZR6AIC.

The symposium is free for SARL members and R50 for non-members. Students may attend for free. Registration details will be available on the SARL web on Monday.

You are listening to a news bulletin of the South African Radio League.
